

FY 2015 Grant Announcement (Initial):

ONLINE PUBLISHING of HISTORICAL RECORDS

The National Historical Publications and Records Commission (NHPRC) of the National Archives supports projects that promote access to America's historical records to encourage understanding of our democracy, history, and culture.

The following grant application information is for **Online Publishing of Historical Records** projects.

Catalog of Federal Domestic Assistance (CFDA) Number: 89.003

Funding Opportunity Number: PUBLISHING-201410

- Draft (optional): TO BE DETERMINED
- Final Deadline: TO BE DETERMINED

NHPRC support begins no earlier than **TO BE DETERMINED**.

Grant Program Description

The National Historical Publications and Records Commission has re-envisioned its publishing program to make historical records of national significance to the United States broadly available by publishing digital surrogates on the Internet, as well as such editorial processes as transcribing and annotating the records, as appropriate.

Projects may focus on the papers of major figures from American life or cover broad historical movements in politics, military, business, social reform, the arts, and other aspects of the national experience. The historical value of the records and their expected usefulness to broad audiences must justify the costs of the project. The Commission will not consider proposals that charge for access.

Grants are awarded for all stages of publishing historical records online, including, compiling, digitizing, transcribing, and annotating documentary source materials. In particular, the Commission seeks applications that focus on digitizing, transcribing, annotating, or any combination of these core activities.

Historical documentary editing projects with print editions may apply under this category as long as they have an online edition that provides free access to the document collections. NHPRC-supported historical documentary editions that currently do not provide free online access to their documents should apply in the NHPRC's Publishing Historical Records: Transition Support grant program.

Applicants may digitize a single collection or set of collections for online publication. Such online editions should provide basic item-level access to collections as a preliminary stage of publishing. In addition, applicants may apply for support to undertake more complex editorial work, such as document transcription and/or annotation. Applicants are encouraged to consider using crowd-sourcing methods for preliminary document transcription activities.

The Commission will not support the preparation of critical editions of published works unless such works are just a small portion of the larger project. The NHPRC does not fund proposals to purchase historical records.

For a comprehensive list of Commission's limitations on funding, please see [What We Do and Do Not Fund](#).

Award Information

Applicants may apply for funding for one to two years. Award amounts can range from \$20,000 to \$175,000 per year; projects that are only digitizing records should expend no more than \$75,000 of grant funds per year. The Commission expects to make as many as 35 grants in this category, for a total of up to \$2,500,000. Grants begin no earlier than TO BE DETERMINED.

The Commission requires that grant recipients acknowledge NHPRC grant assistance in all publications, project websites and other products that result from its support.

Eligibility Information

Eligible applicants are:

- Nonprofit organizations or institutions
- Colleges, universities, and other academic institutions
- State or local government agencies
- Federally-acknowledged or state-recognized Native American tribes or groups

Cost Sharing

Cost sharing is required. Cost sharing is the financial contribution the applicant pledges to the cost of a project. Cost sharing can include both direct and indirect expenses, in-kind contributions, non-Federal third-party contributions, and any income earned directly by the project. The Commission ordinarily provides no more than 50 per cent of total project costs for Publishing Historical Records Online projects.

Other Requirements

Applicant organizations must be registered in the System for Award Management (SAM) prior to submitting an application, maintain SAM registration throughout the application and award process, and include a valid DUNS number in their application. Details on SAM registration and requesting a DUNS number can be found at the System for Award Management website at <http://sam.gov>. Please refer to the *User Guides* section and the Grants Registrations PDF.

A complete application includes the Application for Federal Assistance (Standard Form 424), Assurances -- Non-Construction Programs (Standard Form 424B), a *Project Narrative, Summary, Supplementary Materials, and Budget*. Applications lacking these items will not be considered.

Ineligible applications will not be reviewed.

Application and Submission Information

All information necessary to apply is included in this announcement. If you need the information supplied in an alternative format, please call the NHPRC at 202-357-5010.

Applicants should follow the instructions on how to fill out the online forms and apply electronically using the [Application Instructions](#).

The National Historical Publications and Records Commission (NHPRC) requires that grant applications be submitted via Grants.gov. In the event that Grants.gov is experiencing technical difficulties that prevent submission, applicants must first attempt to resolve the issue with the Grants.gov Contact Center (800-518-4726). If Grants.gov cannot solve the problem, applicants may request an alternative. To make use of the NHPRC backup system, applicants must contact Jeff de la Concepcion (202-357-5022) no later than 3:00 Eastern Time on the day of the deadline with their valid Grants.gov Contact Center trouble-ticket number.

In order to ensure eligibility, applicants should first review the Federal grant administration rules and regulations governing grants from the NHPRC listed in the [Administering an NHPRC Grant](#) section.

Applicants are encouraged to submit drafts by TO BE DETERMINED, but drafts are not required. The drafts should be sent by email to the person listed under Agency Contact and should include a draft narrative and budget.

Project Narrative

The Project Narrative is a description of the proposal. It should be no more than 20 double-spaced pages in 12-pt type on 8.5 x 11 inch paper with standard margins.

Projects in this program should result in broad public access to and enhanced understanding of significant primary source materials through the digitization of originals, and editorial processes such as the transcription of documents, and/or the creation of annotation and explanatory notes that provide context and further understanding. Projects may include ongoing historical documentary editions or new projects to publish historical records collections online. Please specify which phase(s) of online publication you wish supported with Commission funds.

Please organize your narrative in sections:

1. Begin with a brief overview of the project that explains the national significance of the historical materials and your methods. Then, explain how you selected the materials. Describe the historical importance of individuals, events, developments, organizations, or places whose history would be documented by the project. Describe the collections or series to be included in your project, and explain how the publication of these documentary source materials will increase public understanding of national history and culture. Indicate the quantity of materials (estimate by sampling the materials).
2. Explain your methods for providing free online access to these materials. (The Commission will not consider proposals in this program where there will be a charge for access to the materials.) Discuss the state of existing descriptive material and any additions you plan to make to it; if possible, include relevant portions of the existing finding aids or indexes in your proposal's supplementary materials as well as a link to them if available online; if you do intend to add tags to the existing description, the Commission encourages the use of crowd-sourcing for this activity. Be sure to demonstrate that your project has all necessary rights to make the collection(s) available online to the general public. Discuss how you will handle restricted materials, if there are any.
3. If you are digitizing records, indicate which digitization standards you intend to use, and why. Describe what kind of hardware and software you plan to use or develop to make these collections available online. Explain whether you plan to use a vendor for any part of the project and your selection process. If you plan to do the work in your repository, discuss what capacities you have and which you will need to develop (including personnel, training, equipment and software).

Discuss your editorial approach and standards. If you are transcribing records, discuss who will be performing the transcription and what guidelines will be in place for transcribers. Discuss whether you will use crowd-sourcing as a means to complete the transcription.

If you will be adding contextual information, annotation and/or indexing, to the materials, discuss your approach, target audience, and methods.

4. Explain how your proposed method of providing access will ensure that users understand the context, content, and structure of the collection. Describe what kinds of searches and display methods you will offer users and how these will take advantage of the existing information about the materials, as well as the information you intend to add – including transcriptions and annotations. Explain your plans to preserve the results of your work - the digitized surrogates, the transcriptions and any annotations - beyond the end of the grant period.

5. Include a plan of work that outlines the tasks and project costs (both grant funds and cost sharing) associated with each activity. In your supplementary materials, include a detailed project plan that indicates which project staff and resources will be used to accomplish each of the stages. As part of the project, applicants will be expected to document each stage, including any changes in work flow, as well as the actual costs of each stage. Describe how you will market your program and its website with press releases, brochures, speeches, websites and other types of outreach.

6. Describe the qualifications of the project's principal staff members. In the supplementary materials, provide a résumé of not more than two pages per person for all staff named in the project budget. For those staff members to be hired for the project, provide job descriptions, specify the qualifications that will be sought in candidates for vacant positions, and describe the roles to be played by all project staff, consultants, and contractors. Explain any special training planned for personnel. If you have an advisory board, identify the members and their area(s) of specialization.

7. List four to six objectives by which we can measure your performance. For example, estimate the number of documents you plan to transcribe and/or annotate during the grant period; the number of publicly available documents/volumes completed, etc. You should focus on *quantifying* what you intend to accomplish and complete.

Project Summary

The Project Summary should be no more than 3 double-spaced pages in 12-pt type with standard margins, and it must include these sections:

- Purposes and Goals of the Project
- Plan of Work for the Grant Period
- Products and Publications to be completed during the Grant Period

- Names, Phone and Fax Numbers, and E-Mail Addresses of the Project Director and Key Personnel (*Please ensure that the project director listed on this summary is the same person listed in Section 8 (f), of the SF 424. If your institution requires a different contact person on the SF 424, please explain in one sentence.*)
- Performance Objectives

Supplementary Materials

Prepare up to 35 pages of Supplementary Materials to your Narrative, such as:

- Résumés of named staff members (please use only institutional addresses and phone numbers) (required)
- Position descriptions for staff to be hired with grant funds (required, if applicable)
- Detailed work plan charts that supplement the Narrative
- Statements of commitment to the project by partners
- Your institution's mission, goals, and objectives statements
- Sample documents (facsimiles accompanied by transcription and annotation).

If these materials are available on a web site, please provide the URLs.

Project Budget

You must submit a budget on the **NHPRC Budget Form** available on the [Application Instructions](#) page. Note that the form itself contains additional instructions. You may include with your application a narrative budget supplement for budget categories that require further detail. Provide specific budget figures, rounding to the nearest dollar.

Applicants will be asked to compute the project costs to be charged to grant funds as well as those that will be supported by the applicant through cost sharing, which includes both direct and indirect expenses, in-kind contributions, non-Federal third-party contributions, and any income earned directly by the project.

If the project expects program income, it should be allocated among specific budget categories on the cost-sharing column of the project budget. The total amount of expected program income should be reported on page 13 of the NHPRC budget form under "Project Funding for Entire Grant Period." The same amount should appear on the Application for Federal Assistance, SF424, item 18f. Please use the narrative budget supplement to explain the calculation of the expected income and its allocation.

All of the items listed, whether supported by grant funds or cost-sharing contributions, must be reasonable and necessary to accomplish project objectives, allowable in terms of the applicable federal cost principles, auditable, and incurred during the grant period. Applicants should review the appropriate Office of Management and Budget circulars on cost principles.

Charges to the project for items such as salaries, fringe benefits, travel, and contractual services must conform to the written policies and established practices of the applicant organization. In addition, successful applicants will be required to certify that they have adequate accounting and timekeeping procedures to meet the Federal requirements.

Budget Categories

In preparing the budget, please follow the suggestions below in each of the categories:

Salaries: List each staff position and the full salary to be charged to the project and show the percentage of time each staff member will devote to the project. Indicate which positions are to be filled for the proposed project and which personnel are already on the staff of the applicant institution. Grant funds may be used to pay the salaries of only those individuals actually working on the project. You may count the time provided to the project by advisory board members.

Fringe Benefits: Include employee benefits using your organization's standard rates. No separate benefits should be included for positions that are computed at a daily rate or using honoraria.

Consultant Fees: Include payments for consultant services and honoraria. Provide justification for large or unusual consultant fees. Include consultant travel expenses in the "Travel" category.

Travel: Include transportation, lodging, and per diem expenses. The NHPRC does not fund staff travel to professional meetings unless the travel is essential to accomplish the goals of the project.

Supplies and Materials: Include routine office supplies and supplies ordinarily used in professional practices. Justify the cost of specialized materials and supplies in a supplemental budget narrative.

Services: Include the cost of duplication and printing, long-distance telephone, equipment leasing, postage, contracts with third parties, and other services that you are not including under other budget categories or as indirect-cost expenses. The costs of project activities to be undertaken by each third-party contractor should be included in this category as a single line item charge. Include a complete itemization of the costs in a supplemental budget narrative.

Other Costs: Include costs for necessary equipment above \$5,000, stipends for participants in projects, and other items not included in previous grant categories. The NHPRC does not provide grant funds for the acquisition of routine equipment such as office furnishings and file cabinets, but we may allow for the purchase of archival equipment, such as shelving units, and technical

equipment, such as computers and peripherals, essential for a project. Include technical specifications for equipment over \$5,000 in a supplemental budget narrative.

Submission Dates and Times

- Draft (optional): TO BE DETERMINED
- Final Deadline TO BE DETERMINED

Applications must be submitted electronically by midnight Eastern Time on TO BE DETERMINED.

NHPRC support begins no earlier than **TO BE DETERMINED.**

Deadline Policy: Given that technical or administrative difficulties with Grants.gov may periodically delay the timely submission or receipt of applications, the Commission staff will make provisions for the receipt of such applications past the established deadline. Under these circumstances, applicants with technical or administrative issues related to Grants.gov must contact NHPRC staff as soon as possible, but no later than by 3:00 PM Eastern Time on the published application deadline. Applications that fail to meet deadlines for reasons other than those noted will not be considered for funding.

Application Review Information

The NHPRC staff will acknowledge receipt of the application soon after we receive it. The following evaluation criteria and weights will be used by NHPRC staff and other reviewers to form recommendations.

Criteria for Publishing Historical Records Online Projects

1. The historical significance of the documents to be published. *(35 percent)*
2. The coherence and effectiveness of the proposed work plan. *(30 percent)*
3. Qualifications of the project staff and level of proposed cost-sharing contributions. *(20 percent)*
4. Plans for disseminating project products, including evidence of how these projects benefit, or will benefit, scholars and the public. *(15 percent)*

Application Review Process

After submitting a proposal, do not discuss the pending application to the NHPRC with any Member of the Commission. Commission members must ensure fair and equitable treatment of all applications and do not discuss proposals with individual applicants.

- *Peer Reviewers*
We will ask 5 to 10 external peer reviewers to evaluate the proposal.
- *Commission Staff*
Approximately 3 months after the submission deadline, the Project Director will receive blind copies of reviewers' comments and questions from the Commission staff. Applicants then have an opportunity to expand on the material provided in the application, clear up any misconceptions, and generally strengthen the proposal before the Commission meeting. Staff makes overall recommendations to the Archivist, who chairs the Commission, based on the appropriateness of the project in meeting the Commission's goals, the proposal's completeness, conformity to application requirements and overall eligibility, and answers to the staff's questions letter.
- *The Commission*
After reviewing proposals, the comments of peer reviewers, the applicants' responses to the reviews, and evaluations by the Commission staff, Commission members deliberate on proposals and make funding recommendations to the Archivist of the United States who, as Commission Chairman, has final statutory authority and selects award recipients. Throughout this process, all members of the Commission and its staff follow conflict-of-interest rules to assure fair and equal treatment of every application.

Award Administration Information

Notification

Grants are contingent upon available appropriated funds. In some cases, the Commission will adjust grant amounts depending upon the number of recommended proposals and total budget. The Commission may recommend that the Archivist approve the proposal and extend an offer of a grant with applicable terms and conditions, it may recommend endorsement of a project but not offer a grant, or it may recommend rejection of the proposal.

Grant applicants will be notified within 2 weeks after the Archivist's decision.

Successful applicants will receive an informal offer of award and be required to verify their acceptance of general terms and condition, and complete a statement on their Financial Capability

and Accounting Systems. Once these are received and reviewed, the NHPRC will issue an official award notice.

Administrative Requirements

In order to ensure that you can manage a grant, applicants should review the Federal grant administration rules and regulations governing grants from the NHPRC listed in the [Administering an NHPRC Grant](#) section.

Reporting

In most cases, award recipients will report on their performance in narrative reports every six months and submit financial reports once a year.

Agency Contact

Applicants are encouraged to contact the NHPRC at 202-357-5010, or NHPRC@nara.gov. The NHPRC staff may:

- Advise applicants about the review process;
- Answer questions about what activities are eligible for support;
- Supply samples of successful applications;
- Read and comment on a preliminary draft. Applicants should submit a draft at least 2 months before the deadline.

For more information on how to comply with Federal regulations, see our [Administering a Grant](#) section.
